

# ALPHA 713

7.1" Cortex A9 LCD Computer Module  
PRODUCT INFORMATION

## ALPHA 713 - For the Engineers

## ALPHA 713 - The Headlines

- ▶ 7.1" TFT touch screen LCD with 800 x 480 Resolution
- ▶ Low power consumption
- ▶ Attractive but rugged machined aluminium front panel
- ▶ Front panel overlay allows customisation at low cost
- ▶ Fanless cooling so high reliability and quiet operation
- ▶ Wide input power range from 7 to 36 volts DC simplifies installation and reduces cost
- ▶ Available with Linux, Android and Microsoft Windows Operating Systems\*
- ▶ Mounting options include Dry Wall, Panel & VESA
- ▶ Designed, Manufactured and Technically supported in the UK
- ▶ Dual or Quad 1GHz Cortex A9 ARM RISC Processor
- ▶ 1GB SDRAM memory, 1GB onboard Flash, MicroSD
- ▶ Supports two independent displays (7.1" plus external HDMI display) including HD multimedia
- ▶ 10/100/1000 Mbit LAN, Mini PCIe Socket for additional communications devices
- ▶ Dual external USB 2.0 & 1.1 Host Ports, Triple internal USB 2.0 & 1.1 Host Ports, single external USB Device Port
- ▶ Dual RS232 Serial Port one of which can be a RS422/RS485 Serial Port if required
- ▶ Optional two composite video capture inputs
- ▶ 12 General purpose IO signals, Audio Line In and Output

## ALPHA 713 - In a few words

Designed and manufactured at Blue Chip Technology's facility in the heart of the UK the Alpha 713 is a reliable compact solution to a wide range of touch screen applications. The high performance but low power Alpha 713 delivers an impressive array of technology in a very compact unit. The machined aluminium front panel not only conveys quality but also is extremely rugged which allows a wide range of mounting options.

The Alpha 713 can be supplied with either Linux, Android or Microsoft Windows\* operating systems and is the ideal platform to swiftly develop your new touch screen application.

If your installation requires a low cost, compact, touch screen platform with great support and reliability - the Alpha 713 is the answer.

# ALPHA 713

7.1" Cortex A9 LCD Computer Module  
PRODUCT INFORMATION

## Processors & Memory

### Processors

Device	Cortex A9 ARM RISC
CPU Cores	2 or 4
Speed	1GHz
Data Width	32 bit

### Memory

Technology	DDR3
Speed	
Channel Width	32bits
Capacities	1GB

## Display

- ▶ Resolutions 800 x 480 pixels
- ▶ Technology a-Si TFT
- ▶ Touch Screen 4 wire Resistive
- ▶ Active Area (Wx H) 152.4 x 91.44mm
- ▶ Pixel Size (W x H) 0.1905 x 0.1905 mm
- ▶ Colour Depth 18 bit
- ▶ Interface 18 bit RGB
- ▶ Viewing Direction 6 o'clock
- ▶ Surface Hardness 3H
- ▶ Input Mode Stylus or Finger
- ▶ Operating Force 80g
- ▶ Contrast Ratio 1000 typical
- ▶ Brightness 400 cd/m<sup>2</sup>
- ▶ HDMI Disables LCD display

## Communications

- ▶ 10/100/1000 Mbit LAN
- ▶ Two USB 2.0/1.1 external Host Ports, Three USB 2.0/1.1 internal Host Ports
- ▶ Single USB external Device Port
- ▶ Two RS232 ports, one RS422/485 port
- ▶ Optional Mini PCIe Socket can support Wifi, Bluetooth, GPS, GSM, 2G, 3G, 4G Modems, etc

## Storage

- ▶ Onboard 1GB NAND Flash
- ▶ MicroSD Socket - HC compatible (up to 32GB)

## Expansion and General Interfacing

- ▶ 12 General Purpose IO signals - internal
- ▶ Optional video capture  
Two composite video inputs

## Operating System Support \*

- ▶ Linux
- ▶ Android
- ▶ Microsoft Windows EC 2013

## Environmental/Mechanical

- ▶ Operating Temperatures  
Standard 0°C to 50°C  
Extended -20°C to 60°
- ▶ Humidity 10% to 85% non-condensing
- ▶ EMC Emissions EN55022 (A)  
Immunity EN55024  
Safety EN60950
- ▶ Protection IP54 Front Panel

## Power

- ▶ Input Voltage 7 to 36 Volts DC
- ▶ Power Consumption Up to 7 Watts
